“ *I first met Bill in 1973. I was the worst forklift driver New Process ever had. Bill was a truck driver for Waycinden MFG. To say the least, Bill was unhappy the way I loaded his truck. We had words and he left saying that he will never be back here. Fast forward 8 years, our plant mgr Bill Padilla said he has a good maintenance man he wanted me to talk to. Bill walked into my office, and was shocked that I was sitting there. He said how the hell did you get this job. Needless to say, we hired Bill to be our maintenance manager for the next 25 years. Bill was a great employee, but even a better person. Rip my friend. Dave Shunick*

“ *I first met Bill when he was a teenager with a fast car. We were the same age but the way he always had the pedal to the metal ... never thought he'd make it this long. There was about 30 years where I didn't see him. Then we started bumping into each other again. I recognized him right away. It's probably been 10 or more years since the last time. My condolences to family and friends. R.I.P.*

“ *Looking back Bill and I had alot of great times. We use to go bar hopping and partying. One Saturday we were just riding around in his car and pulled up to a stop sign behind a statiowagon. 2 small kids in the back. Bill said " play along" He pulled a starter pistol out of his glove box and started fighting with me in the car. Then he shot me with the blank pistol. Those kids started screaming and we couldn't stop laughing.*
